

# SAPPHIRE BOILER FINDER

# Find Your Perfect Sapphire Boiler!

**Answer a few simple questions to discover which Sapphire Liquid Fully Modulating Boiler is right for your home!**

**Whether you need an internal or external model, this quiz will guide you to the best choice.**

## **1. Do you have available space for a boiler inside your home?**

- A) Yes, I have space indoors.
- B) No, I prefer not to use indoor space for the boiler.

## **2. Do you have available space in your yard or garden for an external boiler?**

- A) No, I don't have space outside or prefer an indoor option.
- B) Yes, I have plenty of outdoor space.

## **3. How important is noise reduction in your home?**

- A) Not as important—I don't mind a little background noise.
- B) Very important—I'd like to keep my home as quiet as possible.

**4. Is protecting the aesthetic of your home exterior a priority?**

- A) Yes, I'd prefer to avoid equipment outside that changes the appearance of my home.
- B) No, I don't mind having equipment outdoors.

**5. Do you have children or pets who might need to be kept away from the boiler?**

- A) Yes, I'd prefer the boiler to be outside for added safety around children or pets.
- B) No, I don't have any concerns with children or pets

**6. Do you live in a safe area, and how much does security mean for you?**

- A) My living area is not so safety, I prefer having equipment indoors for extra protection.
- B) I live in a safe area and don't mind equipment being placed outside.

## **7. Would you prefer easier access for maintenance and servicing?**

- A) Yes, having the boiler indoors makes it easier to access for maintenance.
- B) No, I don't mind outdoor access for servicing.

## **8. Do you want to add some extra warmth to your house during heating period?**

- A) Yes, it's rather important for me
- B) It doesn't matter

## **9. Would you prefer to avoid additional piping or fuel lines running outside your home?**

- A) Yes – I'd like to keep all equipment and connections indoors.
- B) No – I don't mind if extra connections are needed outside.

# CHECK THE RESULTS

**And find out which Sapphire boiler is more proper for you**

## **If you answered mostly A's:**

The Sapphire 6-32kW Liquid Fuel Boiler INTERNAL KERO is the ideal choice for you! This model is perfect for homeowners who have available indoor space and prioritize quiet operation and easy access for maintenance. It's a great fit for homes where outdoor space is limited or where aesthetics are a concern.

## **If you answered mostly B's:**

The Sapphire 6-32kW Liquid Fuel Boiler EXTERNAL KERO is your best option! With its durable, weatherproof design, it's ideal for those who prefer to keep their boiler outside to free up space indoors. This option works especially well for homes with plenty of outdoor space and less concern for noise indoors.

## Sapphire 6-32kW Liquid Fuel Boiler INTERNAL KERO

Perfect for indoor installation in medium/large properties

-  **Space-Saving for Outdoors**
-  **Easier to Access for Maintenance**
-  **More Secure**
-  **Aesthetic Appeal**
-  **Quiet Operation**

## Sapphire 6-32kW Liquid Fuel Boiler EXTERNAL KERO

Perfect for homes with limited internal space in small properties

-  **Save indoor space**
-  **Reduced extraneous noise inside**
-  **No oil smell**
-  **Flexible Installation Options**
-  **Reduced the risk of fire-related incidents indoors**

*Your Sapphire boiler installer would calculate the heating requirements in your property and give you an advice regarding type of boiler to choose.*
